REBUILDINDY
Department of Public Works

\$55 MILLION INVESTMENT PROJECT HIGHLIGHTS

RebuildIndy is Mayor Ballard's initiative to transform the city through investment in infrastructure improvements to restore deteriorating thoroughfares, residential streets, sidewalks and bridges, as well as address neighborhood drainage and flooding issues and demolish unsalvageable abandoned homes that pose a public safety threat to neighborhoods.

A set of projects has been identified to address problem areas throughout the city, including crumbling and aging bridges. Fifty million dollars in planned improvements are scheduled to bid for contractors by the end of 2010.

Improvements will include repairing and overlaying of bridge decks, repair to bridge approaches and replacement of guard and bridge rails.

*42nd Street Bridge
over Steele Ditch*

*Raymond Street Bridge
over Lick Creek*

*Cossell Road Bridge
over Little Eagle Creek*
